

Student positions in the **Laboratory of Fish Protistology**

Biology Centre of the Czech Academy of Sciences, Institute of Parasitology

We are seeking motivated undergraduate and graduate students to join our international team. Projects can be selected within our following research lines:

- ***Myxozoan life cycles, seasonality and distribution - Exploring new hosts and experimental infections***
- ***Testing new tools to explore myxozoan diversity from environmental samples***
- ***Evolution and potential functions of myxozoan proteases and their inhibitors in host-parasite interactions (good financial support)***
- ***Exploring myxozoan parasite genomics and transcriptomics: elucidating key molecules for parasite success and stage specific adaptations in the Cnidaria***

For more information, check our website (www.paru.cas.cz), contact us by email (Astrid Holzer: astrid.holzer@paru.cas.cz, Pavla Sojková: bartosova@paru.cas.cz) or preferably visit our laboratory (BC, PARU I, 1st floor).
